

# **Pukerau School**

## **Promotion of Students Policy**

### **Purpose:**

Our school's task is to ensure that each child has the opportunity to experience success. In order to achieve this, the actual placement of pupils into a class grouping requires careful consideration of the intellectual, social and emotional development of each individual pupil.

### **Objectives:**

1. The responsibility for classifying children lies with the Principal in consultation with the classroom teacher/s and parents.
2. Flexibility, using considered judgement based on data gathered about the pupil's work, age, personal development (physical, social and emotional maturity) in consultation with parents and teacher/s is essential. If necessary outside agencies will be involved.
3. Changes in classification (not MOE years) may be made at any stage up to Year 6 but preferably in the early school years.

### **Effectiveness Review**

This policy will be reviewed as part of the Board's three year self- review programme.
